

Likshan Lahiru

Software Engineer intern

As a Software Engineering student at IJSE currently pursuing an HND, I am eager to apply my knowledge in programming, algorithms, and problem-solving to contribute to impactful software development projects. With a strong foundation in technical skills, I aim to collaborate effectively within a dynamic team, delivering innovative and efficient solutions to meet project goals.

Technical Skills

Programming Languages

- Java
- Dart
- Python
- C

Web Development

- HTML
- Typescript
- CSS
- JavaScript
- React

Mobile Development

- flutter
- ReactNative
- Node.js

Databases

- MySQL
- MongoDB
- MSSQL
- PostgreSQL

Version Controlling

- GitHub

UI/UX Design

- Figma
- Adobe premium Pro
- Adobe premium Pro

Education

IJSE Panadura

Institute of Software engineering (2022-2024)

Higher national diploma in Software
Engineering - Reading

St. Benedict College.

G.C.E. Advanced Level - 2020

Passed A/L Examination in commerce stream

Royal College Panadura.

G.C.E. Ordinary Level - 2017

Passed O/L Examination.

Projects

[Tool Rent shop management system](#) ^{link}

Developed a desktop application for managing tool rentals in a shop. The system allows users to rent, return, and manage tools effectively. The application supports user authentication, tool inventory management, and rental history tracking.

Technologies - Java, JavaFX, Hibernate, MySQL, Layered Architecture (MVC)

[Pos System Tool Rent Shop](#) ^{link}

Developed a Point of Sale (POS) system for Eshan Enterprises to simplify the management of customers, items, and billing in a retail environment. The system provides a user-friendly interface with core features to streamline the day-to-day operations of a retail business.

Technologies - JavaEE, HTML, CSS (Bootstrap), Font Awesome, MySQL

[AI-Driven Hiring Platform \(ongoing\)](#) ^{link}

Developing a full-stack AI-powered hiring platform, CleverlyAI, that predicts candidate suitability for job roles by integrating large language models (LLMs). The platform includes a user-friendly interface for job seekers and recruiters, automated job recommendations, and real-time data processing. The AI components classify candidates as "Good," "Moderate," or "Bad," enhancing the hiring process

Technologies - Frontend: React, Tailwind CSS, Shadcn UI

Backend: Node.js, Express.js, MongoDB, Mongoose

AI Integration: OpenAI's GPT model, Custom Fine-Tuning Scripts

Deployment: Vercel (Frontend), Railway (Backend)

Soft Skills

Project Management
Public Relations
Teamwork
Time Management
Leadership
Effective Communication
Critical Thinking

Interests

Athletics
Blog writting
Video Graphics
Gamming map Developing
Live Streaming -YOUTUBE

Experiences

IT Assistant
Senani food product Pvt.Ltd
Panadura
2023

Personal Portfolio Website ^{link}

Developed a fully responsive personal portfolio website to showcase my projects, skills, and experiences. The website adapts seamlessly across devices, ensuring optimal viewing on desktops, tablets, and smartphones. Background animations are integrated to enhance visual appeal and user experience.

Technologies - HTML, CSS (Custom Media Queries), JavaScript (for animations)

Java Socket Chat Application ^{link}

Developed a real-time chat application using Java Sockets for communication between clients and a server. The application enables users to send text messages, images, and emojis. It includes a user-friendly interface built with JavaFX and offers a secure sign-up and login system.

Technologies - Java, JavaFX, Java Sockets, JavaFX Scene Builder,

Extra Curricular Activities

- **Second Place – 4x400m Relay**
All Island Senior Tarbat Championship, 2018
- **Second Place – 400m Hurdles**
All Island Senior Tarbat Championship, 2018
- **Second Place – 4x400m Relay**
Relay Carnival Championship, 2019
- **Member – Junior National Team of Sri Lanka**
Competed in national-level athletics events
- **Junior Head Prefect**
Panadura Royal School, 2015-2016
- **Deputy Head Prefect**
Dhamma School, 2017
